

SHANGHAITECH
SUMMER SCHOOL

UNIVERSITÀ
DEGLI STUDI
DI PADOVA

The joint project between the prestigious
ShanghaiTech University and the University of Padova presents:

SCIENCE & ART in Italian Culture 2017

second edition

The three-week intensive course offers an across-the-board panorama of the most exciting topics of Science (from Biology to Neuroscience to Astrophysics) and of Italian Art and Culture. The programme features an impressive number of leading scientists and academics as guest speakers. The course is not only developed for the students of ShanghaiTech University, but also aims at promoting cultural exchange and strengthening academic relations. Students of the University of Padova are therefore welcome to join the lectures, according to availability, upon registration.

Week

1
