TALK SERIES ANNOUNCEMENT:

Aphasia and Linguistics

March 10th, 2021 at 11:30 am

Zoom link: <https://unipd.zoom.us/j/2576207231>

Emeritus professor Carlo Semenza

Professor of Neuropsychology and Neurolinguistic

His interest in neuropsychology flourished during the time spent as a research fellow at the Boston VA Hospital between late 70s and beginning of 80s. During that time interval, he attended some of the seminars by Jerry Fodor, and his view of a modular mind strongly influenced his future work. Semenza's work initially spanned from spatial cognition to aphasia, but soon started to focus on specific aspects of language processing as proper name anomia.
